

# bcbMonitor 4.0<sup>®</sup>

## *Home Appliances*

The harmony in home and the efficiency in daily life are largely influenced by the sensations that electrical appliances allow us to achieve, which must meet certain standards for optimal operation.

Achieving those of course depends to a large extent on the technology used in quality controls, process and testing. We find in the thermographic monitoring offered by our **bcbMonitor 4.0<sup>®</sup>** system an excellent tool to guarantee the required traceability and repeatability.

- Robust industrial controller with redundancy option
